To Whom It May Concern:

The Greater Nashville Association of Realtors has hosted ASP courses for the past few years. In just a few hours Staged Home's exceptional instructors teach attendees how to stage a home professionally for positive first impressions that last from entryway to the back porch! One of the highlights is staging a home after learning how homes are seen by buyers and how to help the seller create the best opportunity for a successful sale! Attendees report that the hands on staging experience is a valuable part of the course.

Both the staff at Staged Homes and the instructors are very professional and easy to work with. The seminars are a positive addition to our course offerings.

I would highly recommend adding an ASP Staging course to any association that is considering branching out with their educational program.

Sincerely,

Judy Ransom
